AI Prompt: Create HW exercises on each chapter. Give 5 multiple choice, 5 fill in the blanks, and 5 matching questions on each chapter. So there should be 15 per chapter for all 11 chapters.
Absolutely! Here are the homework exercises for each of the 11 chapters, with 5 multiple-choice, 5 fill-in-the-blanks, and 5 matching questions per chapter.

AI Prompt (alternative): Create HW exercises on each chapter. Give 5 multiple choice, 5 fill in the blanks, and 5 matching questions on each chapter. So there should be 15 per chapter for all 11 chapters. Also, since the output may be too long, give the results for 4 chapters at once, followed by the next 4, then the last 3, so as to overcome any limitations on your output size.

Chapter 1: Family

Multiple Choice:

1. What does a family typically consist of?

   a) Only parents and children

   b) Grandparents, parents, siblings, and sometimes pets

   c) Only grandparents

   d) Only siblings
   - Answer: B)
2. What is a right for all children according to the chapter?

   a) Working in fields

   b) Education

   c) Staying at home

   d) Watching TV all day
   - Answer: B)
3. What should we do with differences in appearance?

   a) Ignore them

   b) Respect them

   c) Make fun of them

   d) Avoid people who look different
   - Answer: B)
4. What is expected of each family member?

   a) To do whatever they want

b) To contribute to the household

c) To ignore each other

d) To only watch TV

- Answer: B)

5. What should children NOT be doing?

a) Playing

b) Studying

c) Working

d) Sleeping

- Answer: C)

Fill in the Blanks:

1. Families consist of grandparents, parents, and _____.
   - Answer: families consist of grandparents, parents and siblings
2. Each family member _____ to the household through shared tasks.
   - Answer: each family member contributes to the household through shared tasks
3. Children should be in _____, not working.
   - Answer: children should be in education, not working
4. We should _____ differences in appearance.
   - Answer: we should respect differences in appearance
5. People in a village have various _____ that fulfill community needs.
   - Answer: people in a village have various jobs that fulfill community needs

Matching:

1. Grandparents, parents, siblings a) Contribute
2. Each family member b) Love and care
3. Family members c) Family structure
4. Education d) Respect
5. Diversity e) Right for all children
   - Answers:
     i. Grandparents, parents, siblings = contribute
     ii. Each family member = love and care
     iii. Family members = respect
     iv. Education = right for all children
     v. Diversity = family structure

Chapter 2: Plants around Us

Multiple Choice:

1. What part of the plant absorbs water and nutrients from the soil?

a) Stem

b) Leaves

c) Roots

d) Flowers

- Answer: C)

2. What do leaves produce through photosynthesis?

a) Water

b) Nutrients

c) Food

d) Soil

- Answer: B) (or) C)

3. What type of plant has a strong, woody stem (trunk)?

a) Herb

b) Shrub

c) Creeper

d) Tree

- Answer: D)

4. What is the stalk that attaches the leaf to the stem called?

a) Vein

b) Margin

c) Petiole

d) Apex

- Answer: C)

5. What do plants help prevent?

a) Air pollution

b) Soil erosion

c) Noise pollution

d) Light pollution

- Answer: B)

Fill in the Blanks:

1. _____ transport water and nutrients throughout the leaf.
    - Answer: petiole transport water and nutrients throughout the leaf
2. _____ grow along the ground.
    - Answer: creepers grow along the ground
3. Flowers are involved in _____.
    - Answer: flowers are involved in leaves
4. Plants provide us with food, oxygen, and _____.
    - Answer: plants provide us with food, oxygen, and nutrients
5. Roots _____ water and nutrients from the soil.
    - Answer: roots provide water and nutrients from the soil

Matching:

1. Roots a) Grow along the ground
2. Leaves b) Strong, woody stems
3. Creepers c) Absorb water and nutrients
4. Trees d) Produce food
5. Stems e) Transport resources and support the plant
    - Answers:
        i. Roots = absorb water and nutrients
        ii. Leaves = Produce food
        iii. Creepers = grow along the ground
        iv. Trees = strong, and woody stems
        v. Stems = transport resources and support the plant

Chapter 3: Animals around Us

Multiple Choice:

- Which type of animal lives in forests?

  a) Domestic

  b) Wild

  c) Pet

  d) Farm
    - Answer: B}
- What do herbivores eat?

  a) Meat

  b) Plants

  c) Both meat and plants

  d) Dead animals
    - Answer: B)

- What is an animal that hunts and kills other animals for food called?

  a) Prey

  b) Predator

  c) Scavenger

  d) Herbivore
    - Answer: B)
- How do dogs communicate?

  a) Meowing

  b) Chirping

  c) Barking

  d) Roaring
    - Answer: C)
- Where do birds typically live?

  a) Burrows

  b) Dens

  c) Nests

  d) Water
    - Answer: C)

Fill in the Blanks:

1. _____ animals live with us and provide benefits like milk.
    - Answer: Domestic animals live with us, and provide benefits like milk
2. Animals move in various ways: walking, _____, jumping, flying, and swimming.
    - Answer: animals move in various ways: walking, crawling, jumping, flying, and swimming
3. _____ eat both plants and meat.
    - Answer: omnivores eat both plants, and meat
4. Animals communicate through sounds and other _____.
    - Answer: animals communicate through sounds, and other bodily language
5. Predators hunt and kill _____ for food.
    - Answer: predators hunt, and kill preys for food

Matching:

1. Domestic animals a) Hunt and kill other animals for food
2. Herbivores b) Live in forests
3. Predators c) Live with us

4. Wild animals d) Eat plants
5. Omnivores e) Eat both plants and meat
    - Answers:
        i. Domestic animals = live with us
        ii. Herbivores = eat plants
        iii. Predators = hunt, and kill other animals for food
        iv. Wild animals = live in forests
        v. Omnivores = eat both plants and meat

Chapter 4: Our Body

Multiple Choice:

1. What do we use our eyes for?

    a) Smelling

    b) Seeing

    c) Hearing

    d) Tasting
    - Answer: B)
2. How many senses do we have?

    a) Three

    b) Four

    c) Five

    d) Six
3. What should you do if someone makes you uncomfortable with a bad touch?

    a) Stay silent

    b) Say "NO" loudly

    c) Laugh

    d) Ignore it
    - Answer: B)
4. What is the national helpline for children in India?

    a) 911

    b) 100

    c) 1098

d) 411
    - Answer: C)
5. What is an example of a healthy habit?

   a) Skipping meals

   b) Not washing hands

   c) Eating fruits and vegetables

   d) Staying up late
    - Answer: C)

Fill in the Blanks:

1. We use our _____ to smell and breathe.
    - Answer: we use our nose to smell, and breathe
2. Good touch makes us feel _____ and cared for.
    - Answer: good touch makes us feel comfortable and cared for
3. Private parts should never be _____ by others.
    - Answer: private parts should never be touched by others
4. Maintaining a healthy body requires good _____.
    - Answer: maintaining a healthy body requires good habits
5. We should be _____ and inclusive to people with disabilities.
    - Answer: we should be kind, and inclusive to people with disabilities

Matching:

1. Eyes a) Five
2. Senses b) Say "NO" loudly
3. Bad touch c) See
4. Child Helpline 1098 d) Healthy habits
5. Brushing teeth e) India
    - Answers:
        i. Eyes = see
        ii. Senses = five
        iii. Bad touch = say “NO” loudly
        iv. Child helpline 1098 = India
        v. Brushing teeth = healthy habits

Chapter 5: Food

Multiple Choice:

1. What is food crucial for?

   a) Watching TV

   b) Playing games

c) Energy, growth, and health

d) Sleeping all day

- Answer: C)

2. What are examples of food from plants?

a) Meat and milk

b) Fruits and vegetables

c) Eggs and honey

d) Fish and cheese

- Answer: B)

3. What does a balanced diet include?

a) Only sweets

b) Only meat

c) Various food groups

d) Only junk food

- Answer: C)

4. What does cooking enhance (improve)?

a) Food's cost

b) Food's digestibility (అరగడం), taste, and safety

c) Food's size

d) Food's color

- Answer: B)

5. What is an example of a good food habit?

a) Eating quickly

b) Chewing well

c) Wasting food

d) Eating while watching TV

- Answer: A) (or) B)

Fill in the Blanks:

1. We obtain food from both plants and _____.
   - Answer: we obtain food from both plants, and animals
2. _____ needs vary with age.

    - Answer: food needs vary with age
3. Proper _____ is essential to prevent illness.
    - Answer: proper food is essential to prevent illness
4. A _____ diet includes various food groups.
    - Answer: a good diet includes various food groups
5. _____ can be prepared in diverse ways.
    - Answer: food can be prepared in diverse ways

Matching:

1. Food a) Balanced diet
2. Meat, milk, eggs b) Cooking
3. Various food groups c) From animals
4. Digestibility, taste, safety d) Crucial for survival
5. Boiling, frying e) Food preparation
    - Answers:
        i. Food = crucial for survival
        ii. Meat, milk and eggs = from animals
        iii. Various food groups = balanced diet
        iv. Digestibility, taste, safety = cooking
        v. Boiling, frying = food preparation

Chapter 6: Water

Multiple Choice:

1. What percentage of the Earth is covered by oceans?

    a) 25%

    b) 50%

    c) 71%

    d) 90%
    - Answer: C)
2. What process describes water changing from liquid to gas?

    a) Condensation

    b) Precipitation

    c) Evaporation

    d) Collection
    - Answer: C)
3. What falls back to Earth as rain, snow, or sleet?

    a) Evaporation

b) Condensation

c) Precipitation

d) Collection

- Answer: C)

4. What is a major concern regarding water?

a) Overabundance

b) Scarcity

c) Lack of color

d) Too much salt

- Answer: B)

5. What is a way to make water safe to drink?

a) Freezing

b) Boiling

c) Coloring

d) Sweetening

- Answer: B)

Fill in the Blanks:

1. About _____ of Earth is covered by oceans.
   - Answer: about 71% of Earth is covered by oceans
2. _____ is the process of water changing from a liquid to a gas.
   - Answer: Evaporation is the process of water changing from a liquid to a gas
3. Rain, snow, or sleet are forms of _____.
   - Answer: rain, snow, or sleet are the forms of precipitation
4. _____ water sources provide clean and purified drinking water.
   - Answer: fresh water sources provide clean and purified drinking water
5. Boiling, filtering, and purifying are methods for making water _____ to drink.
   - Answer: Boiling, filtering, and purifying are methods for making water clean to drink

Matching:

1. Evaporation a) Water droplets form clouds
2. Condensation b) Water collects in bodies
3. Precipitation c) Water to gas
4. Collection d) Rain, snow, sleet
5. 71% e) Earth covered by oceans

- Answers:
    i. Evaporation = water to gas
    ii. Condensation = water droplets form clouds
    iii. Precipitation = rain, snow, and sleet
    iv. Collection = water collects the in bodies
    v. 71% = Earth covered by oceans

Chapter 7: Shelter

Multiple Choice:

1. What is a primary function of shelter?`

   a) Decoration

   b) Protection

   c) Entertainment

   d) Storage
   - Answer: B)
2. What is a "pucca" house made of?

   a) Mud and straw

   b) Brick and cement

   c) Leaves and branches

   d) Snow and ice
   - Answer: B)
3. What is a village in Maharashtra, India, known for having no doors?

   a) Mumbai

   b) Pune

   c) Shani Shingnapur

   d) Nagpur
   - Answer: C)
4. What do animals create for shelter?

   a) Roads

   b) Nests, burrows, dens

   c) Schools

   d) Hospitals

    - Answer: B)
5. What is important for a healthy home?

   a) Loud music

   b) Cleanliness and tidiness

   c) Darkness

   d) Clutter
    - Answer: B)

Fill in the Blanks:

1. Shelter provides protection from weather elements and _____.
    - Answer: shelter provides protection from weather elements, and wild animals
2. _____ houses are made of mud and straw.
    - Answer: Kutcha houses are made out of mud, and straw
3. Pucca houses are made of brick, cement, and _____.
    - Answer: Pucca houses are made of brick, cement, and iron
4. Animals create shelters like nests, burrows, and _____.
    - Answer: animals create shelters like nests, burrows, and dens
5. Maintaining a _____ and organized house is vital for health.
    - Answer: a clean and organized house is vital for health

Matching:

1. Shelter a) Brick and cement
2. Kutcha house b) Nests, burrows, dens
3. Pucca house c) Protection
4. Animal shelters d) Mud and straw
5. Cleanliness e) Important for health
    - Answers:
        i. Shelter = protection
        ii. Kutcha house = mud, and straw
        iii. Pucca house = brick, and cement
        iv. Animal shelters = nests, burrows, and dens
        v. Cleanliness = important for health

Chapter 8: Travel

Multiple Choice:

1. What is essential for connecting people and places?

   a) Entertainment

   b) Transportation

   c) Food

d) Sleep
    - Answer: B)
2. What is a driver of an airplane called?

    a) Sailor

    b) Captain

    c) Pilot

    d) Conductor
    - Answer: C)
3. What helps regulate traffic flow?

    a) Music

    b) Traffic signals

    c) Games

    d) Books
    - Answer: B)
4. Where do trains stop for passengers?

    a) Bus stands

    b) Airports

    c) Railway stations

    d) Parks
    - Answer: C)
5. What should we be towards animals used for transportation?

    a) Indifferent

    b) Considerate

    c) Ignore

    d) Fearful
    - Answer: B)

Fill in the Blanks:

1. People travel by buses, autos, cars, _____, and airplanes.
    - Answer: people travel by buses, autos, cars, trains, and airplanes/aeroplanes
2. Vehicles require _____ to operate.
    - Answer: vehicles require fuel to operate

3. Traffic _____, signs, and road markings help regulate traffic.
    - Answer: traffic signals, signs, and road markings help regulate traffic
4. _____ cross the road on Zebra crossings.
    - Answer: pedestrians cross the road on Zebra crossings
5. Bus stands, railway stations, and airports are public _____ facilities.
    - Answer: bus stands, railway stations, and airports are public feature facilities

Matching:

1. Pilot a) Public transportation
2. Fuel b) Follow rules
3. Traffic signals c) Airplane driver
4. Pedestrians d) Vehicle operation
5. Railway station e) Cross on Zebra crossings
    - Answers:
        i. Pilot = airplane/aeroplane driver
        ii. Fuel = vehicle operation
        iii. Traffic signals = follow rules
        iv. Pedestrians = cross on Zebra crossings
        v. Railway station = public transportation

Chapter 9: ~~Together with Everyone~~ Communication

Multiple Choice:

1. What is communication?

    a) Eating

    b) Sleeping

    c) Exchange of thoughts

    d) Running
    - Answer: C)
2. What is an example of non-verbal communication?

    a) Writing a letter

    b) Gestures

    c) Phone call

    d) Email
    - Answer: B)
3. How do animals communicate?

    a) Only by talking

    b) Only by writing

c) Sounds and signals

d) Only by reading
    - Answer: C)

4. What do bees perform to indicate food sources?

    a) Singing

    b) Waggle dance

    c) Running

    d) Jumping
    - Answer: B)

5. What is an example of a tactile signal in animal communication?

    a) Barking

    b) Chirping

    c) Touch

    d) Roaring
    - Answer: C)

Fill in the Blanks:

1. Communication is the exchange of thoughts, feelings, and _____.
    - Answer: communication is the exchange of thoughts, feelings and ideas
2. Direct communication involves talking _____ to someone.
    - Answer: direct communication involves talking directly to someone
3. Animals communicate through sounds and other _____.
    - Answer: animals communicate through sounds and other signals
4. Bees perform a _____ dance to indicate food sources.
    - Answer: bees perform a waggle dance to indicate food sources
5. Tigers rely heavily on _____ communication.
    - Answer: tigers rely heavily on scent communication

Matching:

1. Verbal communication a) Body language
2. Non-verbal communication b) Talking directly
3. Direct communication c) Waggle dance
4. Bee communication d) Spoken or written
5. Tiger communication e) Scent
    - Answers:
        i. Verbal communication = spoken, or written
        ii. Non-verbal communication = body language
        iii. Direct communication = talking directly

iv. Bee communication = waggle dance
v. Tiger communication = scent

Chapter 10: Games and Recreation

Multiple Choice:

1. What is an example of an indoor game?

   a) Cricket

   b) Chess

   c) Football

   d) Kabaddi
   - Answer: B)
2. What is an example of an outdoor game?

   a) Carroms

   b) Snakes and ladders

   c) Football

   d) Puzzles
   - Answer: C)
3. What do games promote?

   a) Laziness

   b) Fitness and teamwork

   c) Boredom

   d) Loneliness
   - Answer: B)
4. What does “team spirit” mean?

   a) Fighting with teammates

   b) Supporting each other

   c) Ignoring each other

   d) Playing alone
   - Answer: B)
5. What is an example of recreation?

   a) Working all day

b) Singing

c) Doing nothing

d) Arguing
- Answer: B)

Fill in the Blanks:

1. Games played inside a house are called _____ games.
   - Answer: games played inside a house are called indoor games
2. Games played in open fields are called _____ games.
   - Answer: games played in open fields are called outdoor games
3. Games promote physical and _____ well-being.
   - Answer: games promote physical and mental well-being
4. _____ games like Gilli-danda are still popular.
   - Answer: traditional games like Gilli-danda are still popular
5. Recreation includes activities like singing, dancing, and _____.
   - Answer: recreation includes activities like singing, dancing, and drawing

Matching:

1. Indoor games a) Playing in outdoor field
2. Outdoor games b) ~~Team spirit~~ Relaxation
3. Benefits of games c) Chess
4. Respect opponents d) Physical and mental well-being
5. Recreation e) Play fairly
   - Answers:
     i. Indoor games = chess
     ii. Outdoor games = playing in outdoor field
     iii. Benefits of games = physical, and mental well-being
     iv. Respect opponents = Play fairly
     v. Recreation = relaxation

Chapter 11: This is the Way

Multiple Choice:

1. Where does the sun rise?

   a) North

   b) South

   c) East

   d) West
   - Answer: C)

2. What are North, South, East, and West called?

   a) Relative locations

   b) Landmarks

   c) Cardinal directions

   d) Boundaries
   - Answer: C)
3. What helps us know where we are and navigate?

   a) Colors

   b) Landmarks

   c) Sounds

   d) Smells
   - Answer: B)
4. What do maps use to show landmarks?

   a) Colors

   b) Symbols

   c) Smells

   d) Sounds
   - Answer: B)
5. What do we use nowadays to find our way?

   a) Stars only

   b) Sun only

   c) Compasses and GPS

   d) Shadows only
   - Answer: C)

Fill in the Blanks:

1. The sun sets in the _____.
   - Answer: the sun sets in the West
2. _____ locations are described as front, back, left, and right.
   - Answer: relative locations are described as front, back, left, and right
3. Maps represent an area and use _____ to show landmarks.
   - Answer: maps represent an area, and use GPS/compass to show landmarks
4. Corners are where two _____ meet.

    - Answer: corners are where two directions meet
5. In olden days, people used the _____ and the sun to find their way
    - Answer: in olden days, people used the stars and the sun to find their way

Matching:

1. East a) Top of the map
2. North b) Opposite of East
3. West c) Uses symbols
4. Map d) Direction where the sun rises
5. GPS e) Global Positioning System
    - Answers:
        i. East = direction where the sun rises
        ii. North = top of the map
        iii. West = opposite of East
        iv. Map = uses symbols
        v. GPS = Global Positioning System
