

Body parts	observe
eyes	To see
ears	To hear
nose	To smell
Tongue	Taste
Leg	move (walk...)
Hand	hold
Mouth	eat, speak
neck	move head
Fingers	hold activity...
hair	help us from cold

normally, all people have 1 head,
1 neck, 2 hands, 2 legs, 2 eyes,
2 ears, 1 nose, 1 mouth, 1 tongue
& hair. Each hand & leg have 5
fingers. Some people don't have hair.
& miss some hands, legs & fingers.

objects floating on water	observation
stone	will sink.
paper	Wet paper does not float.
leaves	will float.
plastic ball	will float.
plastic water bottle	will float but with water & no lid it sinks.
Wood	will float
plastic foam	will float
brick	will not float. will sink.

Some objects float because they are light.
If they are hard, they sink.

Light & shadows

	<u>object:</u>	<u>how shadow changes:</u>
SUN	plastic bottle circle (popit) steel bottle	light & big; dark & small. oval, rectangle, circle small, big, different shape.

For objects, if that is in other directions, it will change the shadow shape. If the light is less, the shadow will be gray & if the light is more the shadow will be black.

nose:

- (1) Check if everybody has a nose.
- (2) Check if everybody can smell.
- (3) We check in another way & see if the same thing is happening or it false.

mouth:

C1) We check if everybody has a mouth.

C2) We check if everybody can taste the right one

C3) We try another way & see if it is working or it is false.
